

ClearCert Network Providers

Mandatory long-term care training represents a unique challenge – and opportunity – for the long-term care insurance industry. In order to help producers find courses pre-certified for content and delivery method on behalf of ClearCert's Carrier Members, the following training firms have committed to meeting their high standards for course content and delivery and providing single-source reporting of training completion data.

These firms adhere to ClearCert's Course Commandments, demonstrating their dedication to quality and compliance. Long-term care agents can select a course from a ClearCert Network Provider with the confidence that course completions are certified to be fully acceptable to all ClearCert Carrier Members.

ClearCert's Course Commandments

- I. Each course must earn ClearCert Content Certification before it is made available to students
- II. Each course completion must result in a single, unique, dated completion certificate
- III. Exams must meet current state continuing education guidelines (whether or not CE credits are issued)
- IV. Course content must be presented as certified by ClearCert
- V. Course completions must be reported to ClearCert within 15 days
